# HOW IT WORKS

01  
Investors can buy Collectible tokens through the ICO's private and public sale to fund the development of the platform.

02  
The Collectible platform will be created and the Collectible tokens can be obtained through Uniswap.

03  
The Collectible team is constantly partnering up with creators and auction houses for one of a kind elite NFT items.

04  
Unannounced drops of highly unique items sold with NFT's will appear on the platform for a limited time.

07  
After every successful auction sale, 100% of the transaction fee ( 2% of the highest bid ) will be donated to a foundation chosen by the winner.

06  
The highest bidder gets their unique NFT send to their wallet. If the auction involved a physical item, like a piece of art, it will be send to their home address.

05  
Collectible token holders have a 12 hour time frame to bid on the item. The highest bid wins.
